### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ian Burns on 5/12/2004.

2. The application has been amended as follows:

Claims 26-35 have been canceled.

In claim 19, line 14, before "sliding", --placing the print assembly through the opening in the top surface and-- has been inserted.

3. The above changes to claim 19 have been made in order to patentably distinguish the claim from the prior art of record. Claims 26-35 have been canceled in order to cancel non-allowed claims and allow and application to proceed to issuance with respect to the allowed claims.

4. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claim 1 is the limitation of the top surface being positioned at an acute angle relative to a floor, and opening in the top surface providing access to the cavity, the support frame being positioned in the secure compartment, a printer assembly attached to the support frame, at least one glide rail attached to the support frame, and where in the second position the printer assembly is

extended at least partially out of the secure compartment through the opening in the top surface, in combination with the other claimed structure.

The primary reason for the allowance of claim 19 is the limitation of positioning a support frame in a secure compartment of a device comprising a top surface positioned at an acute angle relative to a floor, the support frame having at least one glide rail, providing a print assembly, attaching the media holder to the glide rail, placing the print assembly through the opening in the top surface and sliding the media holder from the entry end to the stopping end of the glide rail, in combination with the other claimed steps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

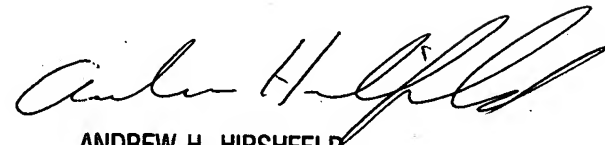

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin D. Williams whose telephone number is (571) 272-2172. The examiner can normally be reached on Monday - Friday, 8:30am - 6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew H. Hirshfeld can be reached on (571) 272-2168. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
